Every once in a yellow moon a new CD will be released that represents what a music genre is all about. Well The Art Gomperz Band featuring Jenna Mammina has just released one of those new albums. This band is fresh sounding. Their instrumental chops are clean and they have come up with some very cool licks on this CD. Now their front person Jenna Mammina is someone the Bluegrass community will soon be getting very excited about. She sings with confidence and her voice is sent from Bluegrass, Roots/Americana Country heaven. "A Different Story to Tell" features a splendid assortment of song styles, from Country to Bluegrass sprinkled with a bit of Folk and Americana. The Art Gomperz Band is on the road to radio popularity with the release of this new sound. Bluegrass fans will be thrilled when they get the chance to hear this new music from this group.

"Hahn's Don't Worry Anymore, a fantastic piece of country gospel which the band whips into fine shape with a fine sense of exuberance and where Mammina sings like an angel in the vein of Loretta Lynn."

"I don't think I was prepared for this project. I usually play traditional bluegrass, & old time country music. As soon as I started playing this project, I was won over by the songs of the late Bev Hahn, the superb vocals by Jenna Mammina, & the great instrumental work by Dan, Al, Mark, Bob. When you think this project is moving in another direction you are hit with a "blistering instrumental" Court In Session or Spanish Grass. The band really shows their chops in these songs!! A great crossover project. I enjoyed it, & I'm sure my listeners will as well". **Al Shusterman KCBL Radio Backroads Bluegrass**

"A different Story To Tell" is a very fine and pleasant album and I immediately started playing it in my radio show of Americana roots based music at Radio Voce Spazio, I really love the music of the Art Gomperz Band, you have a very brilliant and original approach to bluegrass. **Massimo Ferro Radio Voce Spazio Italy**

"We did get a taste of the Art Gomperz Band on the new Acoustic Rainbow bluegrass edition. It really is a fresh sound, and I saw it as a stand out cut. "- **Ken Connors.; WJSJ (was WHJX) Jacksonville, FL 105.7 FM**
