

New CD release "A Different Story to Tell"
Original Acoustic with a Twist, Shaken, Not Stirred!

Spanning generations and centuries, the collective that has been known as The Art Gomperz Band has unleashed an all new original Bluegrass, Country and Americana CD sharing with the world a celebration of music, life and eternal friendship.

Honoring their late friend and incredible song writing talent, Bev Hahn, The Art Gomperz Band has done a fantastic job bringing Bev's music into reality and is proud to present her words and music. A full house of ten original songs encompasses the breadth of Bev's music. From a strong backbone of bluegrass and country, "A Different Story To Tell" not only lets the band showcase their musical talents but also reflects well on Bev's approach to songwriting and her perspective to life in general.

Bev's partner of many years, Dan Geib, brings hot new life and excitement to original Banjo & Flatpicking solos & instrumentals with top shelf Dobro playing by Al Bates and one of bluegrass's finest bass players, Mark Albers. Jenna Mammina contributes not only her stellar singing talent but also her lovely collaboration "Inner Smile".
